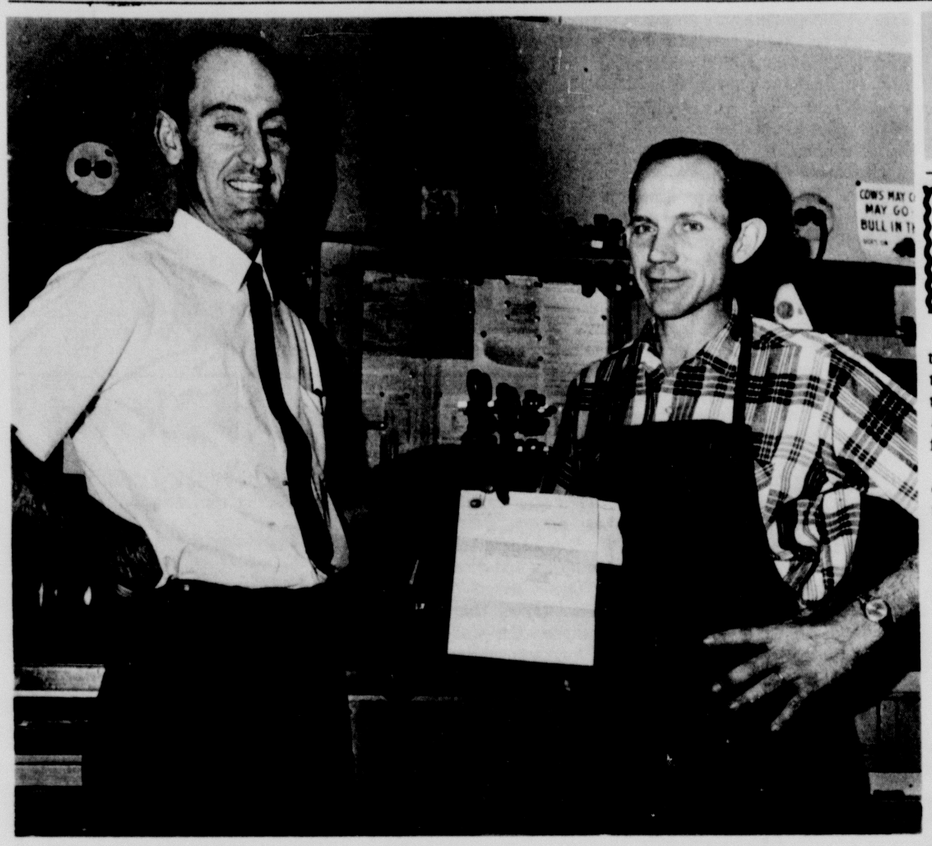
MORE CASH FOR JAIL USE



Ross Russell, assistant postmaster, and Eugene Grabber, postal clerk, hold the letter from Col. Frank Borman, commander of the Apollo 8 flight to the moon. The postal employees received the letter after sending a congratulatory letter to the three Apollo 8 astronauts.

PO Crew Gets

Apollo 8 Letter

The nineteen employees of the Canyon Post Office sent a telegram of congratulations to the three Apollo 8 astronauts and received a letter last week from Col. Frank Borman.

Eugene Grabber said that the employees sent the telegram the day the astronauts landed congratulating the astronauts on their mission and extending their gratitude that the astronauts were back safely.

The postal employees received the reply Thursday.

The letter from Col. Borman read:

"Many thanks for your telegram of congratulations extended on the successful completion of the Apollo VIII flight. As crewmen of this historic first voyage around the moon, Jim, Bill and I appreciate your thoughtfulness in thus saluting man's first interplanetary mission and are most grateful for your kind and generous comments regarding our participation in this achievement."

Grabber said this was the first time the postal employees had sent a telegram of this kind. "We just got to talking about it

Mothers Seek Funds Sunday

A goal of $750 has been set for the mother's march for the March of Dimes Drive.

The mothers will march in a citywide canvas Sunday from 2-5 p.m. seeking funds to fight birth defects, according to Francis Shell, county chairman.

Co-ordinating the mothers drive will be Mrs. Bob Neeb and Mrs. Paul Davis. Both represent the Canyon Study Club which will coordinate the citywide drive.

About 60 women are expected to take part in the canvas which will have headquarters at the Pioneer Natural Gas Building here.

Countywide goal for the total campaign is $1,000, according to Shell.

May Ask Prisoner Handling Charges

BY TROY MARTIN

Randall County may ask the city of Canyon for a bigger contribution toward radio dispatching and handling of city prisoners and use the money to beef up the Sheriff's Department.

Commissioners cast about for more revenue after Sheriff L. S. "Slim" Johnston asked for two more deputies.

Ironically, Johnston needs extra help primarily because his department is loaded down with civil papers to be served for the city of Amarillo and Amarillo Independent School District.

The sheriff told commissioners court Monday that most of the papers involved concern tax suits.

Johnston told the court he wants a civil deputy whose primary duty will be to serve civil papers. He also requested an office deputy for the sheriff's office in the South Amarillo court house annex.

Commissioner Bill Butler asked the sheriff if he couldn't make do with one additional deputy.

"We could get by," said the sheriff, "but we just can't give the service."

Johnston explained that one man is needed at the sheriff's office in South Amarillo to answer the telephone and to make car inspections.

State law provides that out of state cars be registered when their owners take up residence in Texas. Before they can be registered in this state they must be inspected by an officer --in this case a representative of the sheriff's department.

"The tax office gets $15 out of it but we don't get anything," said Johnston. "We just get $4 for serving papers and it costs a lot more than that so it looks like we are just spending mon-

Group Recommends Raising Rural Levies

County taxes on rural land will be raised and those on urban property lowered if recommendations of a 9-man tax study group are approved by Randall County commissioners court.

The committee's report was presented to the court Monday afternoon by Chairman Virgil Henson.

It calls for what amounts to a 13.33 percent increase in rural taxes and a decrease of 3.66 percent in city taxes in Randall County.

The three-point recommendation calls for leaving rural evaluations as presently assessed and levied, adjustment of city evaluations by a 15 percent reduction in the present 100 percent evaluations and raising the present 15 percent taxable evaluation to 17 percent on both rural and city property.

In simple arithmetic, an urban home now valued at $10,000 on the county tax rolls would be valued at $8,500 and would be taxed on a basis of $1,445.

Dry farmland would remain on the rolls at $55 an acre and irrigated land at $175 an acre but would be taxed on a basis of 17 percent of those amounts instead of at the present 15

$30,000 Grant Given Prof At University

A grant of $30,000 has been given a chemistry professor at West Texas State University for research in the area of his choice by the Robert A. Welch Foundation.

Dr. James D. Woodyard, assistant professor of chemistry, will research "Carbenes and Carbenoids."

The grant is part of $5,340,000 given this year by the foundation for chemistry research.

Five other professors at WTSU have previously received foundation grants. They are Dr. Ray Malzahn, Dr. Gene Crowder, Dr. Marion Guidry, Dr. Albert G. Mueller and Dr. Alfred Schram.

Grants to WTSU professors have totaled about $180,000.

The Welch Foundation was established in 1954 by the will of Robert Alonzo Welch of Houston.

Dr. Malzahn, dean of the college of arts and sciences, said the foundation is one of the three largest in the nation providing grants for chemistry research.

He said the Welch Foundation grants money exclusively in Texas.

One Files For City Election

Walter Shelley, assistant professor of government at West Texas State University, filed Wednesday for place 4 on the Canyon city commission.

Felix Pierce now holds place 4 on the commission.

Shelley said, "Since I am a student and a professor of government, I feel I can contribute something to the commission."

Shelley said he wished to stress the importance of more participation on the part of the electorate in local elections.

"If we truly want to keep government close to the people then we must all participate in those responsiblities in every way we can," he said.

Shelley said he was filing for the commission at this time in order to bring attention to the fact that Canyon residents must register to vote by Jan. 31.

"People can't participate in

School Studies Past Due Taxes

Canyon school board Tuesday night discussed the possibility of filing suits in delinquent tax cases.

Superintendent Jerry Jacobs and Tax Assessor-Collector Conway Kuykendall were instructed to study the matter and bring recommendations to the board.

Jacobs pointed out that much will hinge on a merger of the school and city tax offices.

"If we hire an attorney and we merge our tax offices with the city tax offices, then we should employ the same attorney used by the city in delinquent tax cases," Jacobs declared.

The board sanctioned a contract with Amarillo Architects Clayton Shiver and Russell Megert for preparation of plans for a new junior high school building.

The contracts call for architects fees of 6 percent on the first $400,000; then 5 1/2 percent up to $1 million; and 5 percent for the remainder which will be about $200,000.

Russell Megert told the board that blueprints may run an additional $1,000.

He said the contract may be let in May and completion is expected by September of 1970.

Board Member Bill Davis made a report for his committee studying the tax office merger. The committee is made up of Davis, J. O. Parker and Wesley Cox representing the school board; H. R. Fulton and Jim Christopher representing the city; and Dr. Manly Bryan and Dr. W. J. Wooten.

The committee will meet at 7:30 p.m. Thursday at the Davis Agency.

Jacobs discussed the governor's report on education. The most controversial portion of the report recommends that there be only one school dis-

Commission To Sit On Committee

Canyon City Commissioners will remain members of the Potter-Randall Citizens Committee as a result of action taken last Thursday night.

The commission reappointed itself to the committee.

In other action at the meeting, City Manager Paul Davis was authorized to let bids for two transistor two-way radios for the Sanitation Department.

He was also authorized to advertize for bids on the destruction of two farm buildings on the city's sewer property.

"Adopted" GIs To Visit Happy

One hundred and sixty-five Vietnam-bound soldiers have chosen "the town without a frown" south of Canyon as their adopted hometown.

In a letter to the Happy Jaycees, Maj. David Dross, commanding officer of the 238th Aviation Co. of the U. S. Army, said Happy has been chosen by the men as the town they would like to think of as their own.

George Tirey, secretary of the Happy Jaycees, said the 137 enlisted men and 28 officers of the helicopter company, chose Happy after hearing stories of the town from Warrant Officer Jerry Powell.

Powell, son of Mr. and Mrs. Jack Powell of Happy, is a former Jaycee himself and apparently sold the town well.

Thirty-six men from the Ft. Riley, Kans., based company will fly to Happy Sunday in 12 battle-rigged helicopters to spend a day. They will stop on their way to California, and then Vietnam.

Tirey said the men will land about 9 a.m. and will be taken, if they want to go, to the church of their choice by Happy residents. A coffee will also be held at this time.

The men will then be treated to a covered dish lunch at the school cafeteria. A band concert will follow about 2 p.m.

The men are expected to leave about 4 p.m.

Tirey said the company "just wanted a town their unit could call home while they're overseas."

The Jaycees also plan to send gifts and cards and letters to the men on special occasions, such as Christmas.

Tirey said he thinks the unit will be in Vietnam about a year.

Maj. Dross stated in his letter that the unit is an aerial weapons company, whose mission is to provide fire support for ground troops and support for other helicopters.

Townspeople will have a chance to show the men around Happy.

Registration Ends Jan. 31

The tax assessor-collector's office in Canyon and the sub-office in Amarillo had registered 6,552 voters as of Wednesday.

This figure includes 3,106 who have registered in Canyon and 3,446 at the sub-office.

The deadline for voter registration is Jan. 31. Registrants must have been a resident of the state one year and of the county six months.

Last year, Randall County had 22,633 registered voters.

Aaron's appointment is untenured.

He said he has never served on a government board previously, but has served on sev-

The show features Buddy Roland as Paul, the lame puppeteer, and Shelly Taylor as Lili, the waif who joins Paul's act.

Gary Moore portrays the role of Marco, the magician. Marco's assistant, the incomparable Rosalie, is played by Molly Malone. Paul's friend and fellow puppeteer, Jacquot, is played by Hal Owen.

Equally important are the costume, lighting, stage and property crews. Crew managers include Charles Parks and Walter Burkhart, stage; Kent Barnard, props; Susan Booth, costumes; Margaret Raef, make-up; Hal Owen, publicity; and Alfred Bednorz, tickets.

The lighting crew consists of Bill Lumry, Marilyn Schuette, Nobie Cates and Jamie Martin.

Barry Cox designed and made the four puppets for the show.

'CARNIVAL' scene portrays Rosalie (Molly Malone) in the swordbox as Marco the Magician (Gary Moore) contemplates a romatic idea. The two are among students cast in the annual all-school musical to be presented January 30-31 and February 1 at Canyon High School auditorium.

COVERING FUMBLES

by Dean Mitch Jones

Our hospitals are wonderful places; but they do strip you of your dignity right down to the bare facts!

by Troy Martin FROM THE CANYON RIM

I learned this week that The Canyon News will not be able to cover meetings of the draft board.

A Canyon News reporter was told that proceedings of the selective service board are closed and that records of prospective draftees are confidential.

There is no way for the public to learn why a given individual is deferred and another is not.

This is not the fault of the board members. This is the rule by which the game is played.

On this and some other points I am critical of the present methods of the selective service system.

Selective service boards in these uncertain days hold near life or death powers over our young men. Drafting one and deferring another may send the one to his grave and the other to a life of ease and comfort.

I contend that a body with such awesome power should meet under public scrutiny. I contend that any reason advanced by one man for not serving his country might affect the need for calling another to perform that service.

Because of this possiblity, any reason for asking deferment should be a matter of public record. Also for this reason, and others, I think the deliberations of the selective service board should be open to the public.

If the meetings are not to be open to the public, then I think grounds for granting any deferment should be a matter of public knowledge.

Preston Smith became governor of Texas Tuesday.

The new governor is no orator. He is no wheeler dealer. But I think Preston Smith will make Texas a good governor because I think he is a decent, honorable man.

I think his very lack of flambouyance may make him a better governor.

He is the first man from this part of the state to move into the governor's mansion. I know that Preston Smith would like to have the friendship and support of his fellow West Texans.

There exists between Amarillo and Lubbock, Smith's home town, a sort of Fort Worth-Dallas rivalry that is sometimes good but often detrimental to the growth of the area.

Basically, the interests of the North and South Plains lie in the same direction. Maybe Preston Smith will be able to put this point across to the people of both areas during his first term as governor.

If he does, it's a cinch that he will run a lot better in the 18th Congressional District in 1970 than he did in 1968.

"In 1881 a man worked on the T-Anchor Ranch with whom no one was very well acquainted. An iron gray horse called "Bob" fell on him. The crude nursing of the cowboys could not save his life, and he died. The fellow went by the name of Misner. We never did find his people and knew very little about him. He had a little bank account, which is still in the account of Gunter and Munson.

"In 1882 Robert Truvy and his wife were keeping the ranch house, and in that year a baby came to them. The child died and was buried over on the hill by the side of Misner. Van Stickley dug the graves. Mrs. Truvy had skinned buffalo until two days before the baby was born and began skinning two days after the baby's birth.

"In 1885 two men came through who were traveling for their health. One died of tuberculosis, and he was buried over by the hill. I believe the Historical society would do well to locate these graves and mark them.

"A party came through on their way to Tascosa. A Mexican with them was drowned in the Tierra Blanca, and was buried over by Misner.

"This is the history of the first burial ground in the Panhandle.

The Randall County Survey Committee has tried to locate these graves, as have others, but, so far have not located the graves. If anyone knows of their location please contact Mrs. Clyde Warwick. Phone 655-2243.

Calendar Lists Afro Weekend For April 17-19

An Afro-American weekend, featuring a possible parade in downtown Canyon, has been listed on the spring calendar of the Student Activities Council at West Texas State University.

The weekend will be April 17-19. It is sponsored by Kappa Alpha Psi and Omega Psi Phi, according to the calendar.

The possibility of a parade being staged during the weekend came to light recently when it was reported that representatives of the WTSU Negro community had requested a permit from the City of Canyon to parade.

City Clerk Jim Walker, at that time, told the students that any permit would have to be issued through the City Commission.

Walker said this week neither he nor Police Chief Calvin Costley have received any other word about the parade.

Medrano Sentenced

Medrano pleaded guilty to a charge of armed robbery. He admitted taking $78 from an Amarillo service station at 3600 Washington on Sept. 26.

Medrano was arrested Sept. 27 and has been free on $2,500 bond since the robbery.

Our World

BY ANN BROWN

If Texas parents sit idly by and allow the arbitrary recommendation from the General Committee on Public School Education to become the law of the land, they deserve what they get--but the children do not.

The saddest thing that has ever happened to our rural communities has been the destruction of the public schools; community disintegration usually follows. A few country schools, of course, were simply too small to be maintained. This is not the case in the latest bureaucratic decree. It is this kind of tyranny that breeds contempt for government.

Whatever the advantages--if any--in destroying our small school systems, they are far outnumbered by the disadvantages.

When children are forced to catch a school bus before daylight in the morning, and get home after dark, they are deprived of a valuable segment of their lives. They are frequently too sleepy and frustrated to be able to eat an adequate breakfast. They get home too late for any playtime out of doors. They are too tired to start on their homework immediately, so they have a choice of skipping study time or needed sleep.

As a rule the commuting child has no opportunity to participate in any of the extracurricular activities. If he does take part in the music, athletic, or drama programs, his mother must make numerous long trips into town. Mothers with pre-school children or low incomes simply cannot maintain the required pace.

In addition to the mental, physical, emotional, and cultural deprivations of the children inherent in the proposed school policy--and the insult our community autonomy, think of the taxes!

Texans are already groaning under an unbearable tax burden, and we are in desperate need of enlarged classroom facilities. The abandonment of millions of dollars worth of perfectly good school buildings would be a wanton waste of the taxpayers' money, and another boost to the inflation that is rapidly destroying the national economy.

Everyone knows that the large school system--even at its best--tends to depersonalize the children; it also tends to depersonalize the teachers.

In a small school, the teachers are (or can be if they so choose) beloved, respected members of the community. In the large schools, children seldom see their teachers outside the classrooms, and are prone to think of them as fixtures of the school rather than friends who are interested in their welfare.

Teachers are the most influential people in our current society; not every child goes to church, but every child goes to school. If we depersonalize our schools, we deprive the conscientious teachers who want to exert constructive influence, of the privilege, and allow the careless ones to hide in anonymity.

The parents who ignore this dangerous edict because they feel it will not involve their children can be sure it will involve their pocketbooks. If every Texas parent and teacher will write Preston Smith, and the state senators and representatives, this destructive program can be stopped.

Let's remind our officials that the State does not support our schools- we support the State.

After the funeral is over
After goodbyes have been said
When the medals have been given
And the citations are read.

How can we look to the future
How can we go on as before
When we know now that our son
Will never again enter our door.

We pray for young boys who like him
Are giving their best for us all
And for the families at home waiting
May they never receive that dread call.

"He died of his wounds--in action"
They say it as kind as they can
But the sun set forever that day
Our boy had left us--a man.

God love and comfort each soldier.
Bring them this message from above
Tell them we are praying for them
And be sure to sign it--"With Love."

Speech-Hearing Topic Of DZ Meet

Amarillo Speech and Hearing Center director, Buddy Stephens, presented a program on the history and development of the center in Amarillo at a recent session for Delta Zeta alumnae chapters of both Amarillo and Canyon.

Stephens told of the center's present activities and the importance of detecting hearing defects at an early age. The center presently has a testing and counseling service and works with all ages, the youngest having been four months and the oldest 93 years.

Seventy-five school age children are presently enrolled at the center which has a permanent staff of 13 with additional volunteers working from the medical profession, junior league, Beta Sigma Phi and Delta Zeta sororities.

According to Stephens attempts are being made to establish an infant testing program in Amarillo at present.

The Canyon DZ alumnae chapter presented a check for $55 to the center as hearing and hearing problems is a national philanthrophy project of Delta Zeta.

Amarillo DZ alumnae chapter was hostess for the meeting and served refreshments following Stephens' speech and a tour of the building and facilities was completed.

Attending from Canyon were Mesdames Edith Priddy, W. D. Revel, W. E. Miller, William R. Wilson, Alfred Bellah, Lee Roy Moreland, J. O. Parker, Rose Kinzer, C. H. Clawson and Larry W. Cook.

Next regular meeting for the Canyon chapter will be a covered dish supper February 10 at the Bruce Winn home.

He is a member of the Panhandle Heritage Foundation Board, the Boy Scout Council board, the Red Cross board, and is a past member of the board of the Downtown Kiwanis Club.

A native of Big Spring, Aaron moved to Amarillo from Lubbock 16 years ago.

Aaron said the board's function is to decide on deferments for men 18 years of age or older in the four-county area.

The board is issued a quota each month by the system which must be filled.

Deferments are given on the basis of physical and mental fitness, the registrant's occupation, the registrant's school status and hardships which active duty might incur.

He said the board members go over each registrant's file periodically to determine their draft status.

The board meets on the Wednesday closest to the 15th of each month in the Evans Building in Hereford.

A selective service system spokesman said news media are not allowed to cover board proceedings due to the confidential nature of the registrants' files.

County Judge Carroll Brown suggested that Amarillo telephone calls be answered in the sheriff's office at Canyon.

"I'm not going to argue," Johnston replied after reiterating the necessity of a full-time man at the department's office in South Amarillo.

It was at this point that Butler brought up the possibility of asking the city of Canyon for more money.

The city presently contributes $1,800 toward the sheriff department radio dispatchers' salaries under an arrangement made in the middle 1950s. In return, Canyon city police have use of the department's radio facilities.

Butler brought out that the city of Canyon also uses the county jail for its prisoners and pays nothing for handling or feeding them. Such prisoners usually are fingerprinted and booked at the sheriff's office.

Butler said handling each prisoner and feeding him costs about $2 for the first day. Jail reports reflect that 164 city prisoners were booked at the county jail during 1968 and 17 had been booked this month through Monday.

He said average stay of city prisoners--usually charged with petty offenses--is about 1 1/2 days.

"I think the city should pay the cost of handling prisoners and feeding them," said Judge Brown.

The court took no action on Johnston's request but there was indication that the city will be contacted for a discussion on renegotiation of its arrangement with the county.

Commissioners agreed to study the county budget before acting on the sheriff's request which they estimated would cost about $15,000 a year.

One of the deputies requested by Johnston would be a replacement for the late Lem Pounds--a replacement the court has already authorized.

Members of the court agreed to advertise for bids for fuel for 1969.

trict in most counties in the state.

"Most people believe the legislature will water down the recommendation," Jacobs told the board.

The board voted to expand the special education program by applying for another unit for the minimal brain injured and another unit in speech therapy.

Jacobs said approval will be sought from the Texas Education Agency provided teachers can be found.

He said the only cost to the school would be whatever is paid above state salary schedule as the state will pay the minimum salary schedule.

The board accepted the resignation of Mrs. Jane Rivers who plans to attend the University of Arizona and hired Mrs. Margie Phillips.

Jacobs was authorized to attend the national meeting for school administrators in Atlantic City, N. J., Feb. 14 through 19.

percent.

"After the adjustments are made as outlined above, the income from taxes for Randall County will be approximately equal to the amount estimated by the tax assessor-collector for 1969 under the methods and rates already established," said the written report submitted to the court.

If adopted by the court, the new recommendations could be applied to 1969 taxes, Clayton Heare, Amarillo attorney who served as committee secretary, pointed out to the court.

"We agreed that this is not a solution," said Henson. "It is a step in the right direction.

"We had some differences of opinion and it looked like we weren't going to get anywhere."

The committee submitted a five-page written report signed by committee members.

"The first assignment to which the committee directed its effort was to establish the problem," read the report. "The committee unanimously agreed that land probably has a tax advantage as compared to city property, but the problem is to arrive at an equitable evaluation of property in Randall County.

"Much discussion was had with regard to inflated values of farm land, probably caused by speculative buying, but always the committee came back to the Webster definition of "ad valorem"- (literally, according to the value).

"Some members of the committee wanted to use a strict construction and establish the value as the actual 'selling price' as demonstrated by sales in the county. Other members of the committee felt that the provisions of Amendment I, 1966, House Joint Resolution No. 79, should be used and a more realistic value be established for land used for agricultural purposes.

"No agreement was ever reached by the committee as to the solution of this difference of opinion.

"Unanimous agreement was reached that the present practice of evaluating farm and ranch residences at 50 percent is fair and equitable."

Presently a $10,000 home in the city is valued at the full $10,000 while an identical home in the country is valued at $5,000.

The committee urged commissioners to give consideration to three factors including (1) the constitutional mandate that taxes should be equal and uniform, (2) the constitutional amendment passed in November, 1968 by the people of Texas phasing out the state ad valorem tax, except for 10 cents, and (3) the report of the governor's committee on public school eduction, 1968.

"This committee recognizes that it is not within its scope to determine the relative merits of the budget and needs for Randall County," the report said. "Therefore, our recommendations are made to produce the amount of money projected by the commissioners court."

Henson pointed out that banks, railroads and utilities were not included in the committee's study.

However, these were included in the report's enumeration of tax revenue sources.

Louis Hinders, a Canyon dairyman, told commissioners he thinks some consideration should be given to consolidation of governments and use of modern bookkeeping and other methods of economy in local government.

The committee was appointed about the middle of 1968 after the county was threatened with a law suit over alleged inequities between urban and rural taxation.

Members of the committee include Tom Dawkins, Heare, Hugo Lowenstern and Larry Wright, all of Amarillo, and Henson, Hinders, Charles Gerald, Forrest Gruner and Walter Graham, all of Canyon.

Graham and Dawkins were not present when the report was made Monday.

It was Dawkins who threatened legal action that resulted in appointment of the committee.

Commissioners court did not indicate when action would be taken on the report.

Members of the court praised the committee for its work.

Buffs Square Off Against 4 Colorado, Utah Teams

The West Texas State University Buffaloes, carrying an average of 88.4 points per game and an eight-game winning streak, will put their record on the line this week against four opponents in Colorado and Utah.

Saturday night's foe is Utah State at Logan, holder of an unimpressive 7-9 record.

Utah State is made up, however, of some impressive individuals.

Marvin Roberts, 6-8 forward, ranks among the nation's top 10 collegiate scorers with 26.5 points per game average. Roberts tallied 29 points recently in Utah State's upset victory over Denver.

The Brooklyn, N. Y., sophomore, also averages 13.8 rebounds per game and will have ample support from sophomore Ed Epps, who scored 81 points in his last three games. His season average is 14.5 points per game.

Aiding Roberts and Epps will be 6-5 John Ericksen, 6-8 Tim Tollestrup and 6-2 Paul Jeppesen.

Monday will find the Buffs going against Utah at Salt Lake City. Utah shares the lead in the tough Western Athletic Conference after downing New Mexico and Wyoming last week.

Sophomore Mike Newlin, who has tallied 125 points in the last four games for a 31.2 average, is a big reason for Utah's success. He has completed 66 per cent of his shots from the field and contributed 39 points, a season high, in their victory against Utah State.

A rematch with Weber State will face the Buffs Wednesday.

Weber hasn't lost a game since falling to the Buffs 89-77 in the season opener in Amarillo. The Wildcats, champions of the Big Sky Conference last year, have played 14 games this season.

Next Saturday, the Buffs conclude their road trip in a televised contest with Denver University, holder of a dismal 1-13 record.

Horace Kearney of the Pioneers has averaged 20.1 points per game to pace the Denver quintet.

The Buffs, after a lethargic game in their 95-77 victory over Texas at Arlington last Saturday, will be looking for a little more pep on the road trip.

Simmie Hill, WTSU all-American candidate, played well against Arlington, but couldn't make his 23.4 points per game average. In the Buffs' last three games, Hill has hit only 25 of 71 field goal attempts for 35.2 per cent.

Six-5 forward James McCloud has raised his scoring average to 17 points per game. Mike Mitchell, who scored 32 points against Arlington, holds an average of 16.8 points per game.

The Buffs, ranked as the best independent team in Texas, have outscored previous opponents by an 88.4 to 78.8 average per game.

The Buffs' record stands at 11-2 for the season.

Fast-Moving Girls Outrun Dimmitt 57-36

The Canyon Girl Eagles came up with some fancy footwork Tuesday night as they ran circles around the Dimmitt Bobbies to the tune of 57-36 on the home court.

The Eagles found the basket easily during the first half, but seemed to lag during the second.

Paced by the scoring of Pam Richardson, the girls simply outmaneuvered their opponents during the initial half. The Bobbies finally caught onto some of the plays in the final period, but were unable to capitalize much on an already too-far-behind deficit.

The Eagles bounded to an easy first period lead and held the Bobbies scoreless for a full four minutes.

The girls scored 20 points in the first period to Dimmitt's seven. Eleven Canyon first quarter points were by Miss Richardson.

The second quarter proved to be a defensive battle as Canyon was held to 14 points while the Bobbies upped their scoring to 12 points.

At the half, the Eagles led 34-19.

Top first half scorer was Miss Richardson with 19 points. Top scorer for the Bobbies was Ruth Dyer with 10 points.

The first stanza in the second half was all for the Eagles, too, as Cheryl Davis proved to be a top Eagle rebounder.

The Eagles scored 15 points in the third quarter to Dimmitt's eight.

During the fourth quarter, things ran almost into a stalemate as Dimmitt began catching onto some of the Canyon girls' fast-breaking plays. The Eagles scored but eight points in that round while Dimmitt hit nine.

Miss Dyer scored all Dimmitt points in the final quarter.

Miss Richardson tallied 25 points for the night for Canyon while Miss Dyer scored 23 for Dimmitt.

Other Canyon scorers were Susan Swatzell with 19, Jan Sternenberg with nine and Linda Lehman with four.

Sharon Barker scored seven for the losers while Suzanne Merritt scored six.

The Girl Eagles hit nine of 13 free throws for 69.2 per cent while the Bobbies hit 10 of 19 for 52.6 per cent.

The Girl Eagles meet Olton in Canyon Friday night.

In girls' junior varsity action, the Canyon girls beat the Dimmitt girls 52-36 on the Canyon court.

High scorers for Canyon were Leta Gill and Kim Tucker with 15 points each.

The junior varsity meets Olton at Canyon Friday night.

Canyon Nudges Hereford 52-47

Canyon's chances in the first half of district basketball play were strengthened Tuesday night as the Eagles won over Hereford and Dumas defeated Perryton.

The Eagles nudged Hereford 52 to 47. To win they had to come from behind in the last half.

The Eagles were cold throughout the first two periods hitting only four field goals and eight free throws.

They trailed 28 to 16 at half time.

With Jackie Thrasher leading the way, the Eagles warmed up to their job in the third quarter. Thrasher scored eight points of the team total of 20 during the period.

The Canyon team moved within two points of the Whitefaces by the end of the third quarter when the score was 38-36.

The Eagles played the fourth quarter without the services of Steve Butler who had fouled out in the third.

Canyon had knotted the score 40-40 with five minutes to go in the game and then stalled the ball the last minute and 36 seconds. A Hereford player sank a free throw in with 11 seconds remaining to end scoring.

Thrasher was high point man for Canyon with 18 points. Kyle Sunderman was second with 9 and Lon Conner scored 8. Butler scored 3; Jerry Landrum, 5; and Chris Gerald 7.

Bill McMann led Hereford scoring with 10 points.

The Sophomore team lost to Hereford Sophomores 40-36. John Dodson was top scorer for Canyon with 13 points.

The Canyon Junior Varsity team nipped Hereford JVs 54-52.

The JVs jumped into the lead in the first quarter and never lost it.

Lonnie Moore was top scorer for the Canyon JV with 23 points. Next was Larry Daniel with 15 points.

The Eagles travel to Dumas Friday night for a JV game at 6:15 and a varsity match at 8 o'clock.

Mrs. L. F. Sheffy accepts a letter of thanks from Dr. James P. Cornette, president of West Texas State University, for her donation to the university of a mechanism for chimes in the Joseph A. Hill Chapel. Looking on is Dr. T. Paige Carruth, dean of student life.

Donated Console Works Chimes At WT Chapel

The chimes of the Joseph A. Hill Memorial Chapel on the West Texas State University campus can now be played automatically by a controls console presented by Mrs. L. F. Sheffy in memory of her husband.

Dr. Sheffy was a former head of the history department and chairman of the division of social sciences at the university.

Originally dedicated in honor of Dr. and Mrs. Sheffy some years ago by a social sorority, the chimes can play three musical selections on a prescribed time schedule by means of the console.

The selections are played during the week at 7:45 a.m., 11:45 a.m. and 5:45 p.m., respectively. On Saturday and Sunday the chimes may be heard at 9 a.m., 11:45 a.m., and 5:45 p.m.

The Board of Regents accepted the gift at its January meeting.

New Degree Given Board Sanction At WT

A master of arts degree program in sociology has been approved for West Texas State University by the coordinating board, Texas Colleges and Universities.

The coordinating board met Monday in Austin, according to Dr. James P. Cornette.

Dr. Cornette said that the sociology degree would be undifferentiated meaning that there will be no areas of specialization within the program.

The degree will be available through the department that includes economics, government, sociology, history and geography headed by Hershell Coffee.

The board also granted permission for WTSU to establish a major in industrial distribution-business for the existing bachelor of science degree at WT, Dr. Cornette said.

The purpose of this major will be to produce graduates who can fill positions in industrial sales and training.

The program will include studies in wholesale and retail sales of industrial materials, sales and installation of machinery and equipment, plant safety supervision and personnel testing and placement.

Dr. Wallace Johnston, head of the WTSU Industrial Education Department, will be in charge of the new major.

Final approval was also given to the school of fine arts at WTSU to be composed of three departments now in the college of arts and sciences. They are art, music and speech.

The school of fine arts was initially approved by the coordinating board on Nov. 6, 1968.

Area Woman Writes Book

A Hereford woman, Mrs. Gladys Miller, has written a book entitled "Mama, The Preacher," recently published by Dorrance and Co. of Philadelphia.

The book, a collection of vignettes, is set against the background of the turn of the century.

It concerns the Wells Family and the mother's psychology of raising children.

Mrs. Miller, a native of Sour Lake, is herself the mother of five children and grandmother of 15. She married Hershel E. Miller in 1920.

Mrs. Miller has also authored a book, "Junior, Dear," which concerns youthful escapades.

She is the mother of Mrs. Jerry Jacobs of Canyon.

Dad-Daughter Supper Slated

Annual father-daughter box supper will be held by Canyon's Girl Scouts and Brownies February 7 at Rex Reeves Elementary School cafeteria.

Future Boom Seen In Area Hog Farming Operations

The number of hogs on feed in the Southwest will increase in the next five to six years by between 300 and 400 per cent.

That's a prediction of Bruce Winn, co-owner of Winn Brothers Farm, six miles northwest of Canyon.

Winn has gotten in on the ground floor of feeding hogs on a large scale.

Beginning in March of 1968, Winn has built his operation to its present level of 1,800 hogs. He expects to reach one-time capacity in mid-February with 2,500 hogs. This will let him feed about 8,000 per year.

"The pork industry is on the grow in the Southwest in a similar manner as the beef industry was five or six years ago," he said. "The same things here that are good for cattle make this country ideal for feeding hogs."

The infant hog industry here got a late start, Winn said, because this has traditionally been cattle country and experience in the past with hogs has not been good because it's been on an in and out basis--never from the commercial standpoint.

He said the abundance of feed, and the climate in the Southwest are causing more people to look at the pork industry.

Winn said as the pork industry develops in the area, packers will become more interested in locating here.

"Packers are very interested in this area," he said, "but not until we get the numbers."

He said now within a 150-mile radius of Amarillo, it would be difficult to supply a packer with more than 200,000 hogs a year.

"You need half a million for a packer," he said.

Winn said one drawback to large hog operations is the availablity of feeder pigs on a quality and quantity basis.

Another limiting factor in this area is the lack of adequate financing, he said.

Winn cited financiers' past problems in financing hog farms, as a major factor.

Bowlers Tourney

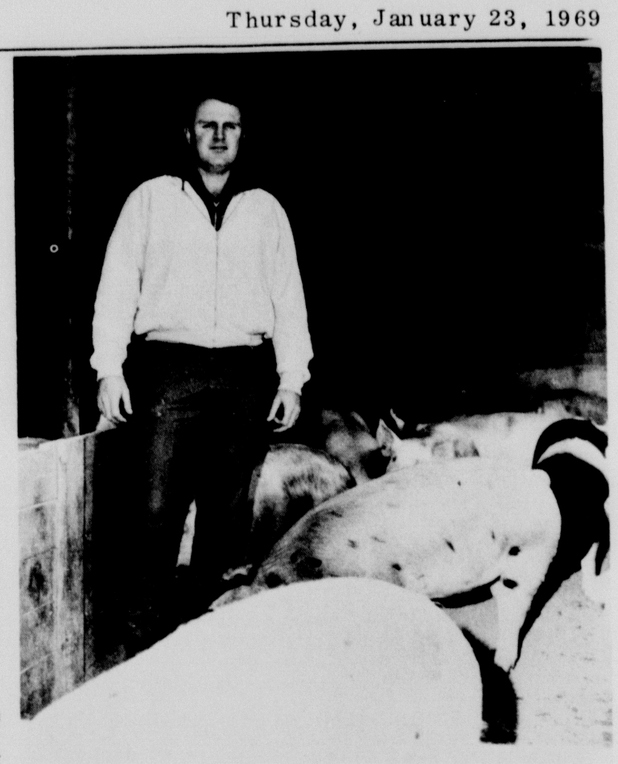
The second annual Canyon Men's Bowling Association tournament will be held on two week ends during February.

The tournament events will be conducted February 15-16 and 22-23 with trophies to be awarded individuals in the categories of team, doubles, singles and overall events.

Competition will include scratch and handicap averages for individuals with American Bowling Congress patches being awarded.

Team sponsor will receive a trophy for first place.

Entry deadline is 6 p.m. February 14.



Bruce Winn, co-owner of Winn Brothers Farm, northwest of Canyon, pauses while checking out his hogs. Winn has started feeding hogs on a large scale basis at the farm. He says the hog business in this area is growing.

Mr., Miss CHS Named Saturday

Miss Carol Fite and Kyle Sunderman are Mr. and Miss Canyon High School for 1968-1969.

The students were chosen in an election by the student body last week and the winners were announced at the school social Saturday night.

Miss Shelly Taylor and Steve Butler were finalists in the contest.

Miss Fite and Sunderman will represent Canyon High School in the Personality Pageant held on the campus of West Texas State University this spring.

The selection of Mr. and Miss Canyon High School is based on scholarship and service and they are chosen as students representative of Canyon High School.

Pat Hickman, vice president of the Student Council, presented Miss Fite with a dozen red roses and Sunderman with a gift certificate from the Brass Carriage. Each received a crown.

Miss Fite, the daughter of Mr. and Mrs. Marvin Fite, is a senior cheerleader, finalist for homecoming queen, a member of the National Honor Society and a member of the Future Business Leaders of America.

Library Planning Meet Set

A meeting of a 14-man committee concerned with building a city library will be held in the near future, according to Levi Cole, chairman.

Cole said he has set no definite time for the meeting.

No funds have been received by the committee since its inception in mid-October, Cole said. At that time, Cole and Mayor Paul Lindsey each gave $1,500 for the project.

Cole said he hasn't "actually gotten anything going," on the committee.

He said the committee has not met since the October organization.

The building is expected to cost in excess of $75,000. If money is raised, the building will be constructed on city property in the 300 block of 16th Street.

Pesticide Lab Report

The Pesticide Laboratory in Denver reported to officials at the Buffalo Lake Wildlife Refuge Monday that no pesticides were found in the fish from Buffalo Lake.

Officials at the lake sent samples of the fish to the laboratory after the recent fish kill to try to determine the cause.

The laboratory in Denver cited stress factors such as low water level, low oxygen level and crowding as the cause for the kill.

The laboratory in Austin recently reached the same conclusion about the cause of the kill.

Jack Crabtree of Inland Fisheries said that all the fish in the lake would be killed this spring and the lake restocked due to the large number of rough fish in the lake.

He said that almost all of the game fish were killed as a result of the stress factors at the lake.

"TEXAS" Auditions Saturday

Auditions for the 1969 season of "Texas" will be held Saturday on the campus of West Texas State University.

This is the second of three auditions. The third will be March 1 at El Centro College in Dallas.

James Kemmerling, technical director, will interview persons applying for technical positions from 10 a.m. to 1 p.m.

Neil Hess, choreographer, will audition dancers at 3 p.m. All candidates are requested to demonstrate their singing and speaking ability.

Applicants should have one prepared number and music for an accompanist who will be furnished. They should also be prepared to give a memorized reading not to exceed three minutes.

Brantley will also hear performers on the violin, guitar, banjo, accordian and double bass throughout the day.

Rehearsals for the production open June 1 and extend until opening night June 27. Performances are held each night except Sunday through Labor Day.

College students usually earn around $500 for the summer and the schedules are arranged so that they may attend some classes at WTSU.

Thirty-five applicants performed at the first audition on Jan. 3, coming from states from California to Louisiana.

Homemaker Shares Recipes

Homemaker Mrs. Keith Turkett shares recipes for Mexican Spoon Bread, Apricot Sherbert and Sweet 'n Sour Weiners with our readers this week.

Raised at Vernon, Mrs. Turkett is the former Shirley Sue Miller, daughter of Mr. and Mrs. Hollis Miller of Vernon. She has one sister, Martha Tollers of Emporia, Kansas.

Mrs. Turkett graduated from Vernon High School and earned the bachelor's degree in nursing from Texas Christian University.

Her husband, also a native of Vernon, is the son of Mr. and Mrs. Tom Turkett of Vernon and he has a brother, Tommy, in Denver, Colorado.

He graduated from high school in Vernon, served two years duty with the United States Army and earned the BS degree in secondary education from North Texas State University. He also received the master's degree in public school administration and the doctorate in elementary education from North Texas State University in Denton.

Prior to moving to Canyon last August, he had taught in several public schools, had taught six years at Texas Christian University in Fort Worth and taught at Sam Houston State Teacher's College in Huntsville.

At West Texas State University, Turkett is associate dean of the school of teacher education and head of the education-psychology department.

The Turketts have two children including Angela, age 10, who is a fourth grade student at Rex Reeves Elementary School and Clay, age 5, who attends Rockin' R Playschool here.

Angela takes piano lessons and is a member of the choir at First Christian Church, Amarillo, where the family has membership.

The Turketts enjoy bridge and reading and she has joined the Canyon chapter of the American Association of University Women.

They are Danforth Associates, which is a special program for college couples with special interests in promoting closer relationships between student and faculty members, and they often entertain student and faculty groups from the university in their home.

Mrs. Turkett is taking some courses at the university and takes pleasure in cooking for her family. From her selection of favorite cookbooks she is often trying new dishes and she said that they "enjoy the successes and tolerate the failures."

Recipes which she shares are:
